Quick Filters on the ESP+ Homepage

2023-10-23 - Jennifer M - General

From the ESP+ homepage you can launch a quick search using the available filter options. To do this, log into ESP+ to the options along the top of the homepage.

The options for the quick search filter options are:

- Featured Category
- What's New
- Rush Shipping
- Live Inventory
- Specials
- Made in USA

These options are a great way to quickly search for products or to help find ideas when developing projects for customers or building collections.
