

Select Product Variants for Decoration

2024-05-21 - Jennifer M - Orders

When editing the decoration information for a product, you can indicate specific decoration criteria for selected variants. For example, you are ordering T-Shirts in both black and white. A white logo on a black shirt will display well, but it would not be visible on the black shirt. Within the Decoration Details section, you can indicate that you would like the logo imprinted in white on the black shirts and imprinted in black on the white shirts.

To do this, take the following steps:

1. Ensure that the Product Variants section contains the correct information. For the example above, there will need to be at least one line item for black T-Shirts and one for white T-Shirts.

Item	SKU	Quantity	Net Cost	Original	Margin	Price	Total Price	Total Cost	Tax	Remove
> L - White/100% Cotton	B009EC005	15	\$7.8500	\$7.8500	50.00%	\$15.7000	\$235.50	\$117.75	<input checked="" type="checkbox"/>	
> XL - White/100% Cotton	B009EC006	15	\$7.8500	\$7.8500	50.00%	\$15.7000	\$235.50	\$117.75	<input checked="" type="checkbox"/>
