Upload Custom Image to Presentation

2023-03-13 - Jennifer M - Projects & Presentation

To upload a custom image for a product, such as an image of the product with the customer's logo, open the project and take the following steps:
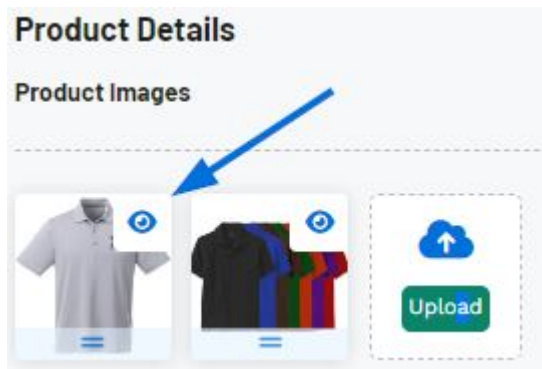

1. Go to the Presentation tab and click on the item in the Edit Products section.

2. In the Product Images section, click on the Upload option.

3. Browse your computer, select the image, and click on Open.
4. The custom image will now be uploaded to the presentation.
