

Display Product Pricing in Canadian Dollars

2024-04-18 - Jennifer M - General

To display product pricing in Canadian dollars, [log into ESP+](#), click on Account from the main toolbar, and then select Localization.

In the Localization section, you can use the Markets dropdown to display products based on the country to which they can be shipped. Selecting All will show products that can be shipped to both Canada and the United States. Additionally, if you select "All" as the Default Market and "Canadian Dollar (CAD)" as the Currency, product results will contain items that have both US and Canadian pricing. Products that contain US pricing will be converted and displayed in the default currency of Canadian dollars. To ensure the converted pricing is as accurate as possible, enable the currency conversion rate to update automatically in the Company Information section.
